Section 1: Introduction

Why Do We Hire International Labour?

- **The Problem**

  Australia is one of the world's largest mining and oil hubs, and falls short of local skilled workers, in the mining, oil, and construction industries for the following but not limited to this reason :

    - Majority of the companies in the aforementioned industries carry out operations in remote, regional areas of Australia with little to no human inhabitants and will require flying in and flying out (FIFO) of workers from operational areas, and as such majority of employable native Australians do not find the work conditions in the areas of operation attractive, hence the resolution by these companies to seek for labour overseas.

- **Our Solution**

  Blue Collar Recruitment Pty Ltd aims to solve this shortage by acquiring, vetting, and training of foreign talent not resident in Australia, for their Australian client companies.
  To ensure that the applicants meet the rigorous Australian standards for mining, construction and oil blue collar jobs, Blue Collar Recruitment Pty Ltd obtained a partnership with Cert Hero Registered Training Organisation to provide training to deserving applicants.

What is in it for you?

The benefits for a potential employee are, but not limited to zero cost migration to Australia (Tickets, Visa, Flights, all sponsored directly or indirectly by the employer), and great job benefits offered in the mining, construction, and oil industries. The benefits are highlighted below:

1. A stable mining, oil or construction industry job in Australia.
2. Employer sponsored Positive Skills Assessment with the Trade Recognition Australia, needed for 482 visa subclass sponsorships and application.
3. Employer sponsored medical fitness test for visa sponsorship and application.
4. Employer Visa Sponsorship (482 Visa subclass; skills in demand visa).
5. Employer Sponsored Flight Tickets to Australia.
6. Free tickets (certification) training, with refund if expenditure was incurred by applicants previously.
7. Robust Compensation Structures and Remuneration Advantages.

- Premium Base Remuneration: Due to the specialized skills required and the critical nature of these industries, baseline wages remain exceptionally competitive compared to other domestic and international sectors.
- Penalty and Overtime Provisions: The framework governing industrial awards and enterprise agreements ensures that workers are heavily compensated for extended hours, shift rotations, and weekend labor.
- Remote Operational Allowances: For Fly-In, Fly-Out (FIFO) or offshore arrangements, employers provide substantial premium uplifts to compensate for remote placement, alongside fully subsidized transit, dining, and on-site accommodation

8. Sustained Job Security and Market Demand
    - Strategic Economic Essentiality: These sectors are classified as critical infrastructure and vital economic pillars by the Australian government, safeguarding employment stability even during macroeconomic downturns.
    - Long-Term Project Pipelines: Continuous public infrastructure initiatives, civil engineering developments, and global resource demands ensure a persistent deficit of skilled labor, translating to long-term career continuity for qualified personnel.
    - Comprehensive Regulatory Protections: Blue-collar workers in Australia operate under heavily regulated workplace frameworks and active industry representation, which strictly preserve worker rights, fair operating conditions, and occupational health and safety standards.
9. Accelerated Career Advancement and Skill Integration
    - Accessible Professional Entry: The sector prioritizes verified operational competency and hands-on experience over traditional higher education credentials, lowering the barrier to entry for highly practical, technical talent.
    - Employer-Sponsored Professional Development: To maintain rigorous safety and regulatory compliance, corporate entities frequently fund advanced training, heavy machinery ticketing, and specialized technical certifications for their personnel.
    - Structured Upward Mobility: Operational structures are explicitly designed to facilitate internal promotion, enabling entry-level personnel to systematically

transition into supervisory, technical specialist, or site management functions over time.

What is in it for us?

- We are compensated financially by our client organizations upon the successful upskilling and employment readiness certification of each applicant presented for employment based on our client organisations labour needs.

The Aim of This Document

This document aims to educate potential employees (applicants) about the goal of this project, the participants, the processes, and the requirements to attain the goal stated above.

Participants

a. Applicant: You
b. Labour Hire Contractor

c. Cert Hero

Cert Hero is the training partner, saddled with task of filling the Australian mining, construction and oil industry ticket (certification) gaps of our applicants

1. CORPORATE & REGISTRATION PROFILE

Cert Hero Pty Ltd is a privately held, commercial trade credentialing and career consultancy established in Australia. The company functions strictly as a professional intermediary advisory service, bridging the operational space between vocational applicants, institutional providers, and national statutory evaluation authorities.

- **Legal Corporate Name:** Cert Hero Pty Ltd
- **Australian Business Number (ABN):** 46 693 035 184
- **Australian Company Number (ACN):** 693 035 184
- **Registered Digital Channel:** certhero.com.au
- **Electronic Mail:** info@certhero.com.au
- **Telephonic Contact:** +61 447 000 919

2. CORE SERVICE PROVISIONING

Cert Hero acts as an end-to-end facilitator managing complex training, compliance, and credentialing pathways. Responsibilities include standardizing documentation portfolios, handling formal submissions to assessment boards, and minimizing administrative delays across six specialized functional areas:

- **Overseas Skills Assessment:** Facilitating international tradespeople in translating foreign work experience and native credentials into Australian recognized qualifications. Cert Hero manages portfolio compliance and application lodgement for external regulatory evaluation.
- **Mining & FIFO Trade Certification Pathway:** Coordinating site-specific compliance portfolios, statutory safety tickets, and industry-required qualifications to render candidates fully operational for fly-in, fly-out (FIFO) resource positions.
- **Offshore Ready Certification:** Coordinating and managing mandatory safety credentials and technical ticket requirements designated for specialized oil, gas, and maritime operations, utilizing industry-preferred pricing frameworks.
- **Apprenticeship Support:** Providing foundational infrastructure for school leavers and emerging apprentices by facilitating critical entry tickets, establishing connections with educational institutions, and organizing onboarding paperwork.
- **Site Ready Tickets & Safety Certifications:** Managing the fast-tracked procurement of mandatory statutory safety credentials required under regional compliance regulations to authorize immediate physical access to industrial job sites.
- **Career Development & Pathway Planning:** Delivering commercial career development services, encompassing trade-specific curriculum vitae (CV) remediation, targeted interview readiness, operational mapping, and direct enterprise networks.

3. COMMONWEALTH REGISTER OF INSTITUTIONS AND COURSES FOR OVERSEAS STUDENTS (CRICOS) ALIGNMENT

CRICOS is the formal state ledger administered by the Australian Department of Education, establishing the legal parameters under which educational providers may offer instruction to non-citizen visa holders within Australia. Because standard short-course training and safety ticketholders require distinct regulatory entitlements, international applicants cannot independently enroll in standard domestic programs without active structural navigation.

Cert Hero Pty Ltd is a CRICOS-registered training provider or educational facility. It fulfills an essential institutional intermediary mandate configured to facilitate legal compliance for overseas applicants through the following mechanisms:

- **Operational Access for Non-Residents:** The consultancy evaluates an applicant's global context to ensure compliance with Australian visa framework provisions, identifying appropriate pathway matches that legally allow overseas candidates to undertake critical site entry training.
- **CRICOS Provider Coordination:** Cert Hero liaises directly with legally authorized, CRICOS-registered institutions and Registered Training Organisations (RTOs). The consultancy oversees structural enrollment architectures so international students can access essential short-course components, such as mandatory Construction Induction Cards (White Cards) or complex maritime safety tickets.
- **Pre-Liaison Application Management:** Cert Hero serves as an administrative clearinghouse, gathering, vetting, and structuring candidate portfolios for completeness before formal transmission to CRICOS-registered providers or statutory bodies (such as VETASSESS, TAFE networks, and Trades Recognition Australia). This ensures data integrity and drastically reduces processing friction for all participating entities.

4. STRATEGIC REGULATORY & INSTITUTIONAL MAPPING

To ensure national and industrial mobility, all client workflows managed by Cert Hero are aligned across recognized Australian training standards, credential matrices, and evaluation structures:

- **Trades Recognition Australia (TRA):** Facilitating evaluation portfolios for foreign

skills conversion under standard migration frameworks.

- **VETASSESS & TAFE Systems:** Coordinating formal training, competency-based assessments, and educational placement strategies.
- **Australian Qualifications Framework (AQF):** Structuring all pathways to deliver exclusively Nationally Recognised Training benchmarks.
- **OPITO Standards:** Facilitating technical compliance matrices required for international oil and gas sectors.

d. Employer

- This is the company that shall eventually hire the applicant, a list of companies shall be presented in the nomination step of SECTION 2 below, applicant shall select their preferred potential employer.
